

บริษัท อาร์ ซี แอล จำกัด (มหาชน)
Regional Container Lines Public Company Limited

PRESS RELEASE
FINANCIAL RESULTS AS AT 3rd QUARTER OF YEAR 2006

As world economy continued to expand, the Group recorded an 11% year-on-year increase in its third quarter liftings at 643,537 TEUs. Robust growth in Asia trade had resulted in a 12% year-on-year increase in Carrier Owned Container (COC) liftings at 326,249 TEUs. The Group's expansion in its feeder services in the Gulf region had helped the Shipper Owned Container (SOC) trade to register a very strong lifting at 317,288 TEUs, a 10% increase year-on-year.

The freight rate for Intra-Asia trade failed to recover despite a very strong demand and was under pressure throughout the quarter. The higher SOC liftings with lower revenue per TEU base also caused further reduction in the blended rate. On the other hand, as Thai baht strengthened further in Q306, the turnover suffered a translation loss when US dollar freight income was translated to baht. All these factors contributed to the reduction in turnover despite the overall 11% year-on-year increase in liftings. Total turnover for the third quarter before exchange difference was down by 12% at THB5,222 million. For the first 9 months, total turnover before exchange difference was lower by 8% at THB15,338 million as compared to last year.

In order to support the dry-docking program of our owned vessels and to provide temporary support to the network, the Group took in two short-term time charter vessels in this quarter. Although the bunker price had reduced since August, it was still substantially higher than prior year. With the two time charter tonnage and higher fuel cost, the Cost of Freight and Operation in third quarter was up 7% at THB4,373 million despite the 11% increase in liftings. For the first 9 months, Cost of Freight and Operation registered a 10% increase at THB12.447 million.

The Group Net Profit for Q306 was reduced by 69% year-on-year at THB439 million due to the higher operation cost and softening freight rate although volume has improved. For the year-to-date, Net Profit for the Group stood at THB1,922 million and was 53% lower than prior year.

As regional currencies strengthened against US Dollar in Q306, the Group recorded a Gain on Exchange of THB69.8 million against a Loss on Exchange amount to THB10.2 million in the same quarter last year. For the first 9 months, the Group recorded a total Gain on Exchange amounting to THB297.7 million versus a Loss on Exchange of THB114.6 million for the same period last year.

BASIS OF PREPARATION

1. THAI BAHT FIGURES

The Thai Baht figures in the balance sheet as at 30 September 2006 and profit and loss accounts for the nine-month periods ended 30 September 2006 and 2005 were extracted from the reviewed consolidated financial statements. The Thai Baht figures in the balance sheet as at 31 December 2005 were extracted from the audited consolidated financial statements. The consolidated financial statements included the financial statements of Regional Container Lines Public Company Limited (hereinafter called "the Company") and its subsidiaries in Thailand, Singapore, Hong Kong and the People's Republic of China.

For consolidation purposes, foreign currency financial statements of the subsidiaries were translated into Thai Baht at the closing exchange rates as to assets and liabilities, and at the average rates as to revenues and expenses. The resultant difference has been presented under the caption of "Translation adjustment" in the shareholders' equity.

2. USD FIGURES

2.1 The USD figures in the consolidated balance sheets were determined by translating the Thai Baht consolidated balance sheets of the Group (except for the two subsidiaries in Singapore, of which the functional reporting currency in USD) using the following exchange rates:

a) For assets and liabilities, we used the following approximate rates:

As of 30 September 2006 : USD 1 = Baht 37.5416

As of 31 December 2005 : USD 1 = Baht 41.0786

b) The approximate rates as of 1 January 1997 were used for brought-forward balances of share capital, share premium, investments, property, vessels and equipment:

For the Company and its Thailand subsidiary

USD 1 = Baht 25.5850

For its Singapore subsidiaries

USD 1 = SGD 1.4020

For its Hong Kong subsidiaries

USD 1 = HKD 7.7296

- c) Approximate rates as at the transaction dates were used for additional share capital, share premium, property, vessels and equipment, and disposals of vessels and equipment.

Any differences have been included in "Translation adjustment".

- 2.2 The USD figures in the consolidated profit and loss accounts were determined by translating the Thai Baht consolidated profit and loss accounts of the Group (except for the two subsidiaries in Singapore, of which the functional reporting currency in USD) using the average exchange rates, which were as follows:

30 September 2006 : USD 1 = Baht 38.2388
30 September 2005 : USD 1 = Baht 40.1775
