## PRESS RELEASE

### FINANCIAL RESULTS AS AT 31 MARCH 2009

The global economic crisis combined with an increase in new tonnage presented the most difficult operating environment for the shipping industry in the first quarter of 2009. In addition, the credit issues affecting most businesses as evidenced in the first 2 months of the year led to more severe drop in liftings in this traditionally low season. The drop in demand coupled with the lack of confidence in the future created a serious impact on ocean freight rates and was most apparent in the Asia to Europe trade. However, there were positive signs from March statistics as most ports in Asia recorded a strong recovery in liftings compared to the first 2 months of the year. With renewed confidence after the G20 meeting and an improved tonnage deployment plan by some shipping lines, there were some indications that the freight rates had bottomed.

The substantial drop in the East West Trade cargo volume affected the Group's Shipper Owned Container (SOC) liftings the most. The SOC liftings in Q109 declined by 28% year-on-year at 262,631 TEUs. Although Asia economy was also affected by the economic crisis, its impact was significantly lower compared to the U.S. and Europe. The Group's Carrier Owned Container (COC) liftings reduced by 8% only, at 298,381 TEUs. Overall, total liftings of the Group recorded a 19% decline year-on-year at 561,012 TEUs.

With 19% reduction in liftings, total turnover for the first quarter before exchange difference, gain on sale of assets, and reversal of allowance was down by 22% at THB3,699 million. The decline in liftings was the main contributor to the decrease in turnover. The freight rates for Q109 were also lower but have been alleviated by a weaker Thai Baht when the Group's US dollar denominated revenue was translated into Thai Baht. The Thai Baht weakened against the U.S. Dollar in Q109 by almost 10% year-on-year and thus provided a translation gain.

On the contrary, a weaker Thai Baht provided a translation loss to the Cost of Freight and Operation when majority of the Group's US dollar expenses were translated to Thai Baht. With a 19% reduction in liftings, the Cost of Freight and Operation in first quarter 2009 was THB4,028 million, only a decrease of 2% year-on-year. As mentioned, the Cost of Freight and Operation suffered a translation loss and fixed cost such as external time-charter hire, vessel operating cost & port charges, etc will not reduce proportionally the drop in liftings. Otherwise, other cost items were in line with the reduction in liftings.

The Company having embarked on a series of cost reduction initiatives will realize most of the savings from Q209 onwards.

In Q408 last year, the company provided an unrealized loss on derivative amounted to THB1,008 million. After taken into account the actual realized loss in Q109 and having provided for the unrealized portion as at the quarter ended, the company recorded a net gain on derivative differences amounted to THB197.8 million in Q109.

In first quarter last year, the Group disposed two old vessels with a disposal gain of THB146.9 million, while there was no disposal activity in this quarter. In Q109, as Thai Baht weakened against the U.S. dollar, the Group recorded a Loss on Exchange of THB164.7 million against a Gain on Exchange of THB191.9 million in the same quarter last year.

With reduction in liftings, lower freight rate, no disposal activities and an unfavorable exchange rate environment this year, the Group recorded a Net Loss attributable to equity holders at THB711.3 million for Q109 versus a Net Profit of THB524.6 million last year.

**REVIEW REPORT OF THE INDEPENDENT CERTIFIED PUBLIC ACCOUNTANT**

To the shareholders and Board of Directors of Regional Container Lines Public Company Limited

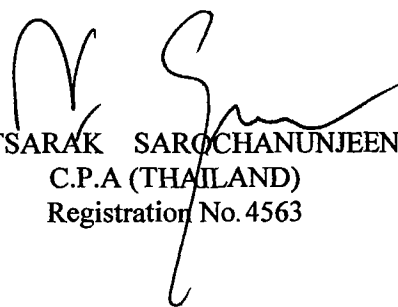

I have reviewed the accompanying consolidated balance sheet of Regional Container Lines Public Company Limited and its subsidiaries as of March 31, 2009, and the related consolidated statements of changes in shareholders' equity, income and cash flows for the three - month period ended March 31, 2009. I have also reviewed the separate financial statements of Regional Container Lines Public Company Limited for the same period. These financial statements are the responsibility of the Company's management as to their correctness and the completeness of the presentation. My responsibility is to report on these financial statements based on my review. As described in note 1.4 to the interim financial statements, I have not reviewed the interim financial statements of overseas subsidiaries which were included in the consolidated interim financial statements for the three - month period ended March 31, 2009. The interim financial statements of those subsidiaries reflect total assets as of March 31, 2009 of Baht 17,213 million, and total revenues for the three - month period then ended of Baht 3,482 million. The interim financial statements of the overseas subsidiaries have been reviewed by other auditors from same audit firm whose reports have been furnished to me, and my report, insofar as it relates to the amounts for the overseas subsidiaries included in the consolidated interim financial statements for the three - month period ended March 31, 2009, are based solely on the reports of the said auditors.

The consolidated interim financial statements of Regional Container Lines Public Company Limited and its subsidiaries and the separate interim financial statements of Regional Container Lines Public Company Limited for the three - month period ended March 31, 2008, presented herein for comparison, were reviewed by another auditor, in accordance with the standards on auditing applicable to review engagements, and she drew a conclusion from the review under her report dated May 12, 2008 that nothing had come to her attention that caused her to believe that the accompanying financial statements are not presented fairly, in all material respects, in conformity with generally accepted accounting principles.

I conducted my review in accordance with the standards on auditing applicable to review engagements. These standards require that I plan and perform the review to obtain moderate assurance as to whether the financial statements are free of material misstatement. A review is limited primarily to inquiries of company personnel and analytical procedures applied to financial data and thus provides less assurance than an audit in accordance with generally accepted auditing standards, and accordingly, I do not express an audit opinion.

Based on my review and the reports of the other auditors as referred to in the first paragraph, nothing has come to my attention that causes me to believe that the consolidated and separate interim financial statements for the three - month period ended March 31, 2009 are not presented fairly, in all material respects, in conformity with generally accepted accounting principles.

The consolidated and separate balance sheets as of December 31, 2008, presented herein for comparison, have been derived from such financial statements, which audited by another auditor and reported in accordance with generally accepted auditing standards and expressed an unqualified opinion in her report dated February 27, 2009. I have not performed any other audit procedures subsequent to such report date.

**Notes to interim financial statements**  
**For the three - month period ended 31 March 2009**

1. General information

1.1 Corporate information

Regional Container Lines Public Company Limited (“the Company”) was incorporated as a public limited company under Thai laws. The Company operates its business in Thailand and other countries in South China Sea and its principal activity is in the business of international vessel operations.

1.2 Basis for the preparation of the interim financial statements

These interim financial statements are prepared in accordance with Accounting Standard No. 41 (revised 2007) “Interim Financial Reporting”, with the Company choosing to present condensed interim financial statements. However, the Company has presented the balance sheets, and the statements of income, changes in shareholders’ equity and cash flows in the same format as that used for the annual financial statements.

The interim financial statements are intended to provide information additional to that included in the latest annual financial statements. Accordingly, they focus on new activities, events, and circumstances so as not to duplicate information previously reported. These interim financial statements should therefore be read in conjunction with the latest annual financial statements.

1.3 Thai Accounting Standards which are effective for the current year

The Federation of Accounting Professions has issued Notifications No. 86/2551 mandating the use of new accounting standards as follows:

TAS 36 (revised 2007)	Impairment of Assets
TAS 54 (revised 2007)	Non - current Assets Held for Sale and Discontinued Operations

These accounting standards became effective for the financial statements for fiscal years beginning on or after 1 January 2009. The management has assessed the effect of these accounting standards and believes that they do not have any significant impact on the financial statements for the current period.

#### 1.4 Basis of consolidation

These consolidated financial statements include the financial statements of Regional Container Lines Public Company Limited and its subsidiaries (“the Group”) and have been prepared on the same basis as that applied for the consolidated financial statements for the year ended 31 December 2008.

The consolidated financial statements for the three - month period ended 31 March 2009 include the financial statements of the overseas subsidiaries which have been reviewed by their auditors. The financial statements of those subsidiaries reflect total assets as of 31 March 2009 of Baht 17,213 million and total revenues for the three - month period then ended of Baht 3,482 million.

#### 1.5 Significant accounting policies

The interim financial statements are prepared using the same accounting policies and methods of computation as were used for the financial statements for the year ended 31 December 2008.

## 2. Trade accounts receivable

The balances of trade accounts receivable - unrelated parties are classified by aging as follows:

- (b) As at 31 March 2009, a subsidiary company in Singapore has commitments amounting to USD 44 million, or approximately Baht 1,516 million (31 December 2008: USD 44 million, or approximately Baht 1,535 million) in respect of the building of 2 vessels (31 December 2008: 2 vessels). These vessels will be delivered in April 2011. Furthermore the subsidiary company has a commitment amounting to USD 60 million, or approximately Baht 2,082 million (31 December 2008: USD 60 million, or approximately Baht 2,107 million) in respect of purchase of 1 vessels (31 December 2008: 1 vessel) which is to be paid within July 2009.

In addition, another subsidiary company in Singapore has commitments amounting to USD 1.6 million, or approximately Baht 57 million in respect of software royalty agreements (31 December 2008: USD 2.1 million, or approximately Baht 74 million); and Baht 102 million in respect of a software implementation agreement (31 December 2008: Baht 102 million)

#### 14.2 Guarantees

As at 31 March 2009, the Company has guarantee obligations of USD 585 million and S\$ 6 million, or approximately Baht 20,998 million (31 December 2008: USD 583 million and S\$ 6 million, or approximately Baht 20,593 million). These guarantees were issued to secure credit lines of overseas subsidiaries from financial institutions. The subsidiaries have outstanding guarantees totalling USD 305 million or approximately Baht 10,856 million (31 December 2008: USD 321 million or approximately Baht 11,221 million).

#### 14.3 Litigation

In June 2000, a subsidiary in Singapore filed a petition to wind up an associated company in Malaysia and another petition to recover an outstanding agency balance of approximately RM 25 million or Baht 235 million. The case is being heard by the court.

In June 2000, the subsidiary was counter-sued by the associated company, claiming compensation of approximately RM 27 million or Baht 269 million, for illegal termination of an agency agreement. The management of subsidiary believes that the ultimate resolution of these legal proceedings is not likely to have a material effect on the results of its operations, or financial position.

### 15. Financial instruments

#### 15.1 Interest rate risk

As at 31 March 2009, a subsidiary in Singapore had a period-by-period knock out swap and interest rate swap agreement covering the notional amount of USD 10.5 million (31 December 2008: USD 11 million), an interest rate of LIBOR is to be swapped for a fixed interest rate, with the notional amount base used for determination of the interest to be amortised at a rate of USD 0.5 million per quarter over the period 2004 to 2014.

As at 31 March 2009, a subsidiary had unrealized losses from changes in the fair value of derivatives of USD 0.4 million, or approximately Baht 14 million (31 December 2008: USD 0.4 million, or approximately Baht 16 million) The Group has recorded allowance for the loss in the income statement since year 2008.

## 15.2 Foreign currency risk

The Group business spans across the Asian region and, as a result, is exposed to foreign currency exchange rates. For that reason, the freight charges are prices in US dollars and payable in local currency equivalents, a natural foreign currency hedge is created by matching the currency of income flow (linked to US dollars) to the currency of indebtedness. This mechanism functions as a key factor for the Group's ability to manage its foreign exchange exposures. Most of the loans extended to the Group, are thus denominated in currencies similar to that of its income flow. In addition, the Group uses derivative instruments, as and when it considers appropriate, to manage such risks. The Group does not use foreign currency forward contracts or purchased currency options for trading purposes.

In addition to foreign currency transactional exposures, the Group is also exposed to foreign exchange movements on its net investment in foreign subsidiaries. As at 31 March 2009 and 31 December 2008, the Group does not hedge such exposures to foreign movement risk as it is minimal.

Whenever possible, it is the Group's policy to negotiate the terms of the hedged derivatives to match the terms of the hedged financial assets or liabilities item to maximise hedge effectiveness.

## 15.3 Commodity price risk

Since year 2008, a subsidiary in Singapore has entered into various contracts to hedge exposure to bunker price fluctuations. As at 31 March 2009, covering the period from April 2009 to June 2009 and volume of 6,000 metric tons per month (31 December 2008: 6,000 metric tons to 15,000 metric tons per month covering the period from January 2009 to June 2009).

As at 31 March 2009, a subsidiary had unrealized losses from changes in the fair value of the above derivatives of USD 4 million, or approximately Baht 142 million (31 December 2008: USD 28.5 million, or approximately Baht 992 million). The Group has recorded allowance for the loss in the income statement since year 2008.

16. Reclassification

Certain amounts in the prior periods' financial statements, presented herein for comparative purposes, have been reclassified to conform to the current period's classifications, with no effect on previously reported net income or shareholders' equity.

17. Approval of interim financial statements

These interim financial statements were authorised for issue by the Company's Board of Directors on May 15, 2009.

Dear Sirs,

**Consolidated financial statements in United States Dollars**

As requested, we have obtained from the management the consolidated balance sheets as at 31 March 2009, the related consolidated statements of income and retained earnings for the three - month period ended 31 March 2009 of Regional Container Lines Public Company Limited and its subsidiaries ("the Group") in United States Dollars ("USD") and performed the following procedures as agreed upon:

- (i) We obtained management's basis in determining exchange rates applied in the translation of financial information.
- (ii) We recomputed the translation of financial information into USD.
- (iii) We checked the casting and extension of the translated USD financial information in the statements.

The above procedures do not constitute either an audit or a review in accordance with Thai generally accepted auditing standards and the basis of translation is not necessarily in compliance with Thai generally accepted accounting principles. We therefore cannot give any assurance on the basis of these procedures.

The above procedures were performed solely to assist you in the preparation of the financial information in USD for presentation to your bankers for the purpose of their facilities review, and are not to be referred to for any other purposes or distributed to any other parties without our prior consent.

The consolidated balance sheet as at 31 December 2008 and the related consolidated statements of income and retained earnings for the three - month period ended 31 March 2008 of Regional Container Lines Public Company Limited and its subsidiaries ("the Group") in United States Dollars ("USD"), presented herein for comparison, were performed by another auditor under her report dated 27 February 2009 and 12 May 2008, respectively.

Yours faithfully,

## Basis of preparation

### 1. Thai Baht figures

The Thai Baht figures in the balance sheets as at 31 March 2009 and profit and loss accounts for the three - month periods ended 31 March 2009 and 2008 were extracted from the reviewed consolidated financial statements. The Thai Baht figures in the balance sheets as at 31 December 2008 were extracted from the audited consolidated financial statements. The consolidated financial statements included the financial statements of Regional Container Lines Public Company Limited (hereinafter called "the Company") and its subsidiaries in Thailand, Singapore and Hong Kong.

For consolidation purposes, foreign currency financial statements of the subsidiaries were translated into Thai Baht at the closing exchange rates as to assets and liabilities, and at the average rates as to revenues and expenses. The resultant difference has been presented under the caption of "Translation adjustment" in the shareholders' equity.

### 2. USD figures

2.1 The USD figures in the consolidated balance sheets were determined by translating the Thai Baht consolidated balance sheets of the Group (except for two subsidiaries in Singapore, of which the functional reporting currency in USD) using the following exchange rates :

- a) For assets and liabilities, we used the following approximate rates:

As of 31 March 2009 : USD 1 = Baht 35.5270

As of 31 December 2008: USD 1 = Baht 34.9438

- b) The approximate rate as of January 1997 was used for brought - forward balances of share capital, share premium, investments, property, vessels and equipment:

*For the Company and its Thailand subsidiary*

USD 1 = Baht 25.5850

*For its Singapore subsidiaries with functional currency reporting in Singapore dollar*

USD 1 = SGD 1.4020

*For its Hong Kong subsidiaries*

USD 1 = HKD 7.7296

- c) Approximate rate as at the transaction dates were used for additional share capital, share premium, vessels and equipment, and disposals of equipment.

Any differences have been included in "Translation adjustment".

2.2 The USD figures in the consolidated profit and loss accounts were determined by translating the Thai Baht consolidated profit and loss accounts of the Group (except for the two subsidiaries in Singapore, of which the functional reporting currency in USD) using the average exchange rates, which were as follows :

31 March 2009 :	USD 1 = Baht 35.5041
31 March 2008 :	USD 1 = Baht 32.1455
