MD\&A, Press Release for Financial Results 31 March 2019

Amidst the competitive and volatile trade environment, RCL was still able to achieve in $5.8 \%$ higher in total liftings of 557,573 Teus for 1Q 2019, better than that of 1Q 2018. Along with this, freight income was up 3.6\% vis-a-vis 1Q 2018.

Total revenue rose 4\% year-on-year to THB 4,244 Mil, coupled with a favourable 58.4\% year-on-year gain on sale of assets and a gain in exchange of THB14.6 Mil versus THB 3.38 Mil, despite a $2.26 \%$ drop in the freight rates per unit.

In tandem with the increase in volume achieved and despite the persistently high bunker prices caused by the on-going trade war and uncertainties, RCL managed to maintain its year-on-year total expenses reasonably well at THB $4,293 \mathrm{Mil}$, a decrease of $0.3 \%$. Total expenses comprising cost of freight \& operation and administration cost, registered a lower figure by THB 47 Mil (1.2\%) and higher by THB 5.8 Mil (2.6\%) respectively, when compared to 1Q 2018. Similar others in the same industry, RCL faced a spike in its bunker cost which resulted in a year-on-year increase of 13.1\%, thus contributing to lesser than expected performance.

All in all, because of the said reasons, RCL Group reported a net loss of THB 28 Mil for 1Q 2019, which was notably still a substantial improvement when compared to the net loss of THB 191 Mil in 1Q 2018.

## INDEPENDENT AUDITOR'S REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION

## To The Shareholders and Board of Directors of <br> Regional Container Lines Public Company Limited

I have reviewed the accompanying consolidated statement of financial position of Regional Container Lines Public Company Limited and its subsidiaries as of March 31, 2019, the related consolidated statements of changes in equity, income, comprehensive income and cash flows for the three - month period ended March 31, 2019, as well as the condensed notes to the consolidated financial statements, and I have also reviewed the separate financial information for the same period of Regional Container Lines Public Company Limited. Management is responsible for the preparation and presentation of this interim financial information in accordance with Accounting Standard 34 (revised 2018), "Interim Financial Reporting". My responsibility is to express a conclusion on this interim financial information based on my reviews.

## Scope of review

I conducted my reviews in accordance with Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with auditing standards and consequently does not enable me to obtain assurance that I would become aware of all significant matters that might be identified in an audit. Accordingly, I do not express an audit opinion.

## Conclusion

Based on my reviews, nothing has come to my attention that causes me to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with Accounting Standard 34 (revised 2018), "Interim Financial Reporting".

# Regional Container Lines Public Company Limited and its subsidiaries <br> Notes to interim financial statements <br> For the three - month period ended 31 March 2019 

## 1. General information

### 1.1 General matter

Regional Container Lines Public Company Limited ("the Company") was incorporated as a public limited company under Thai laws. The Company operates its business in Thailand and other countries in South China Sea and its principal activity is in the business of international vessel operations. The Company's registered address is 127/35 Ratchadapisek Road, Chongnonsi, Yannawa, Bangkok.

### 1.2 Basis for the preparation of the interim financial statements

These interim financial statements are prepared in accordance with Accounting Standards No. 34 (revised 2018) "Interim Financial Reporting", with the Company choosing to present condensed interim financial statements. However, the Company has presented the statements of financial position, changes in shareholders' equity, income, comprehensive income and cash flows in the same format as that used for the annual financial statements.

These interim financial statements are presented in Thai Baht which is different from the functional currency of the Company, which is US Dollar. The presentation is in Thai Baht in accordance with the regulatory requirements in Thailand.

The USD functional currency interim financial statements are translated into the Thai Baht presentation currency financial statements at the rate of exchange prevailing at the end of reporting period in respect of assets and liabilities, and the transactions in the income statements and statements of comprehensive income are translated at the average exchange rates of each period, differences being recorded as "Exchange differences on translating financial statement" in other comprehensive income, other component of shareholders' equity.

The interim financial statements are intended to provide information additional to that included in the latest annual financial statements. Accordingly, they focus on new activities, events and circumstances so as not to duplicate information previously reported. These interim financial statement should therefore be read in conjunction with the financial statements for the year ended 31 December 2018.

An English language version of the interim financial statements has been prepared from the statutory interim financial statements that were issued in Thai language. In case of conflict or difference in understanding, the interim financial statements in Thai language shall prevail.

### 1.3 Basis of consolidation

These interim consolidated financial statements include the financial statements of Regional Container Lines Public Company Limited and its subsidiaries ("the Group") and have been prepared on the same basis as that applied for the consolidated financial statements for the year ended 31 December 2018.

### 1.4 Adoption of new financial reporting standards

### 1.4.1 Financial reporting standards which are effective for the current period

During the period, the Group adopted a number of revised and new accounting standards and financial reporting standards including their interpretations, issued by the Federation of Accounting Professions, which are effective for financial statements year beginning on or after 1 January 2019. Adoption of the above financial reporting standards in the current period do not have material effect on the financial statements. Accordingly, the Group reclassified revenues recovered from customers from "cost of freight and operations" to "freight income" amounting to USD 40.9 million or approximately Baht $1,294.1$ million and USD 38.9 million or approximately Baht $1,227.7$ million in the first quarter of 2019 and 2018, respectively.

The above reclassification, due to initial adoption of TFRS 15 Revenue from Contract with Customers, superseding TAS 11 (revised 2017) Construction Contracts and TAS 18 (revised 2017) Revenue and the interpretation of relevant financial reporting standards, has no impact to the beginning retained earnings and profit and loss of the Group.

### 1.4.2 Financial reporting standards which are not effective for the current period

The Federation of Accounting Professions has issued the new accounting standard, financial reporting standards and financial reporting standard interpretations, which are effective for financial statements period beginning on or after 1 January 2020 as follows:

## Accounting Standard

TAS 32 Financial Instruments: Presentation
Financial Reporting Standard
TFRS 7 Financial Instruments: Disclosures
TFRS 9 Financial Instruments
TFRS 16 Leases
Financial Reporting Standard Interpretations
TFRIC 16 Hedges of a Net Investment in a Foreign Operation
TFRIC 19 Extinguishing Financial Liabilities with Equity Instruments
The management of the Group is currently evaluating the impact of these standards to the financial statements in the year when they are adopted.

## 2. Significant accounting policies

The interim financial statements are prepared using the same accounting policies and methods of computation as were used for the financial statements for the year ended 31 December 2018.

## 3. Change in accounting estimation

During the current period, the Group changed the estimated residual value of the vessels. This change was made so that the residual value of the vessels would approximate market value. The effect of the change is to increase net income of the Company and the Group for the three - month period ended 31 March 2019 by Baht 6.1 million and Baht 21.7 million, respectively (Baht 0.007 per share and Baht 0.026 per share, respectively).

- Principal actuarial assumptions as at 31 March 2019 and 31 December 2018 are as follows:

|  | Percent |  |
| :--- | :---: | :---: |
|  | Consolidated <br> financial statements | Separate <br> financial statements |
| Discount rate | 2.81 | 2.81 |
| Salary increase rate | $5-6.00$ | 6.00 |
| Employee turnover rate | $0-24.00^{*}$ | $2-24.00^{*}$ |
| Mortality rate | TMO2017** | TMO2017** |

* Based on the weighted average by age group of employees
** Reference from TMO2017 : Thai Mortality Ordinary Table of 2017

Significant actuarial assumptions for sensitivity analysis are discount rate, salary increase rate, employee turnover rate and mortality, while holding all other assumptions constant. The sensitivity analysis of change in the relevant actuarial assumption that were reasonably possible as of 31 March 2019 as follows:

- If the discount rate increases (decrease) by $1 \%$, the provisions for employee benefits in Consolidated financial statements would decrease Baht 0.86 million (increase Baht 0.98 million) and Separate financial statements would decrease Baht 0.78 million (increase Baht 0.89 million).
- If the salary increase rate increases (decrease) by $1 \%$, the provisions for employee benefits in Consolidated financial statements would increase Baht 1.20 million (decrease Baht 1.05 million) and Separate financial statements would increase Baht 1.09 million (decrease Baht 0.96 million).
- If the employee turnover rate increases (decrease) by $10 \%$, the provisions for employee benefits in Consolidated financial statements would decrease Bath 0.40 million (increase Bath 0.44 million) and Separate financial statements would decrease Baht 0.38 million (increase Baht 0.42 million).
- If the mortality rate increases (decrease) by one year for all employees, the provisions for employee benefits in Consolidated financial statements would increase Baht 0.04 million (decrease Baht 0.04 million) and Separate financial statements would increase Baht 0.03 million (decrease Baht 0.04 million).

In presenting the above sensitivity analysis, the present value of the provisions for employee benefits has been calculated by using the same method that applied in calculating the provisions for employee benefits recognized in the statement of financial position.

Labour Protection Act has announced in the Government Gazette on 5 April 2019, which is effective dated 5 May 2019. The main point is increasing the rate of benefit of an employee who has past service 20 years or more from 300 days to 400 days. The provisions for employee benefits of the Company and a subsidiary in Thailand which calculated up to 31 March 2019 will be increased in approximately amount of Baht 9.24 million (the Company will be increased in approximately amount of Baht 8.87 million). The amount shall be recorded as expense in the statement of income in the $2^{\text {nd }}$ quarter of year 2019 on the effective date of the Act.

(c) As at 31 March 2019, the Company and the Group has sulphur scrubber purchase commitments amounting to USD 6.1 million or approximately Baht 194.8 million and amounting to USD 8.4 million or approximately Baht 265.6 million, respectively.

### 18.2 Guarantees

As at 31 March 2019, the Company has guarantee obligations of USD 121 million, SGD 6 million and HKD 35 million, or approximately Baht 4,108 million (31 December 2018: USD 121 million, SGD 6 million and HKD 35 million or approximately Baht 4,186 million). These guarantees were issued to secure credit lines of overseas subsidiaries from financial institutions. The subsidiaries have outstanding guarantees totaling USD 41 million and HKD 16 million, or approximately Baht 1,369 million (31 December 2018: USD 44 million and HKD 17 million, or approximately Baht 1,497 million).

## 19. Shipbuilding contracts

On 5 July 2017, the Company entered into 2 optional vessel building contracts amount of USD 39.2 million (as at 31 March 2019 approximately Baht $1,244.2$ million). The payment term of vessel was scheduled in $5^{\text {th }}$ installment periods with different percentages based on the contract price: $10 \%$ for the $1^{\text {st }}$ and $2^{\text {nd }}$ installment, $0 \%$ for the $3^{\text {rd }}$ installment, $5 \%$ for the $4^{\text {th }}$ installment and $75 \%$ for the $5^{\text {th }}$ installment (payment upon delivery of the vessel). On 4 January 2018, the Company postponed the delivery date of both vessels to July 2019 and August 2019, respectively.

As at 31 March 2019, the Company had made payment for the above - mentioned contracts amounting to USD 7.8 million (approximately Baht 248.8 million).

The Group could be exposed to the market risk, including primarily changes in interest rates and currency exchange rates. The Group uses derivatives and other instruments to manage and hedge such risk but not for speculative or trading purposes.

### 20.1 Fimancial risk management

The Group's financial instruments principally comprise cash and cash equivalents, trade receivables, trade payables, and loans. The financial risks associated with these financial instruments and how they are managed is described below.

## (1) Credit risk

Credit risk arises from the inability of customers to meet the payment terms in the normal course of business. Credit limits are set for specific amounts and due care is taken in granting credit. Furthermore, it is the Group's policy to evaluate customer's credit worthiness based on its latest financial performance. Therefore, the Group does not anticipate incurring material credit losses from its debt collection.
(2) Interest rate risk

The Group could be exposed to risk in interest rates due primarily to the Group's long term loan obligations. However, derivative and other financial instrument hedging are used for its long - term loan interest obligations.

The Group's policy is to manage its interest cost usimg a mix of fixed aud variable interest rate debt. To manage this mix in a cost - efficient manner, the Group enters into interest rate swaps in which the Group agrees to exchange at specific intervals, the difference between fixed and variable interest amounts calculated by reference to an agreed - upon notional principal amount. These swaps are designated to hedge underlying debt obligations at the statements of financial position date. The Group does not hold or issue derivative instruments for speculative or trading purposes.

As at 31 March 2019, the Company had a period - by - period knock out swap and interest rate swap agreement covering the notional amount of USD 21.44 million (31 December 2018: USD 14.72 million), an interest rate of LIBOR is to be swapped for a fixed interest rate, with the notional amount base used for determination of the interest to be amortized at a rate of USD 2.13 million per quarter over the period from 2020 to 2023.

For the three - month period ended 31 March 2019, the Company had unrealized gain (loss) from changes in the fair value of derivatives (loss) of USD 0.11 million, or approximately Baht 3.55 million (31 March 2018: gain of USD 0.03 million, or approximately Baht 0.99 million). The Company recorded the unrealized gain (loss) in the statements of income.

(3) Foreign currency risk

The Group business spans across the Asian region and, as a result, is exposed to foreign currency exchange rates. For that reason, the freight charges are prices in US dollars and payable in local currency equivalents, a natural foreign currency hedge is created by matching the currency of income flow (linked to US dollars) to the currency of indebtedness. This mechanism functions as a key factor for the Group's ability to manage its foreign exchange exposures. Most of the loans extended to the Group, are thus denominated in currencies similar to that of its income flow. In addition, the Group uses derivative instruments, as and when it considers appropriate, to manage such risks. The Group does not use foreign currency forward contracts or purchased currency options for trading purposes.

In addition to foreign currency transactional exposures, the Group is also exposed to foreign exchange movements on its net investment in foreign subsidiaries. As at 31 March 2019 and 31 December 2018, the Group does not hedge such exposures to foreign movement risk as it is minimal.

Whenever possible, it is the Group's policy to negotiate the terms of the hedged derivatives to match the terms of the hedged financial assets or liabilities item to maximise hedge effectiveness.
(4) Commodity price risk

Bunker cost represents a major component of the operational costs of a subsidiary in Singapore. Hence the said subsidiary is exposed to bunker price fluctuations. As at 31 March 2019, a subsidiary in Singapore has taken protection against the higher price risk with the physical bunker forward purchase contract within the certain limit in accordance with the Group's policy. The physical bunker forward purchase policy which blends interval forward with spot purchase has provide the Group with a less risk exposure to bunker price. And a subsidiary has outstanding commitments under the above purchase contract as described in note 18.1 (b) to the interim financial statements.

### 20.2 Fair value

Other than the long - term loans, which carry interest at rates which closely approximate market interest rates, the majority of financial assets and liabilities are short - term, and their carrying values do not materially differ from their fair values.

## 21. Capital management

The primary objective of the Company's capital management is to ensure that it has an appropriate financial structure and preserves the ability to continue its business as a going concern.

The Company manages its capital position with reference to its debt - to - equity ratio also to comply with a condition in the long - term loan agreements, which require the Company to maintain a consolidated debt - to - equity ratio of not more than $1.5: 1$.

As at 31 March 2019, the Group's debt - to - equity ratio was $1.13: 1$ (31 December $2018: 1.18: 1$ ) and the Company's was $1.07: 1$ ( 31 December $2018: 1.02: 1$ ).

22. Functional currency financial statements
