## Press Release for Financial Results as at 30 September 2019

Amid continuing uncertainty in the trade environment, RCL reports a net loss of THB 307 Mil in Q3 2019 against THB 11 Mil profit in the previous quarter and a loss of THB 93 Mil in the corresponding quarter last year.

For Q3 2019, RCL recorded a 9\% higher lifting of 562,000 TEU compared to the same quarter last year and secured additional $3 \%$ lifting from the previous quarter. The total revenue diminished by $8 \%$ to THB 4,115 Mil due to a bearish freight rate. The noticeable reduction is the lower freight income, THB 364 Mil or 8\%, and a lesser gain from the disposal of asset by $9 \%$ against the same period in 2018. An average freight rate slumped by $15 \%$ year-over-year and $7 \%$ less than the previous quarter. Despite the difficult trade environment, Intra-Asia trade demonstrates the most promising potential growth, draw in many new comers to gain market share. Hence, resulting in a strong competition in this quarter, depressing the freight immensely.

In addition to the depressing trade atmosphere, a geopolitical tension in the middle east and the enforcement of sulfur emission cap starting from the beginning of 2020 has posted a noticeable indication of a higher cost to the shipping lines. Evidently, RCL has been able to restrain the cost of freight and operation was $4 \%$ lower year-over-year. While the bunker expense slightly decreased by 6\% compared to what we had recorded in Q3, 2018. As for the total cost of administrative expense, we were able to maintain to almost the same as Q3, 2018 and decreased from the previous quarter, Q2 2019, by $2.1 \%$. Our financial cost increased by $31 \%$ against the same quarter in the previous year because of the investment decision to take a greener step, installing scrubber system to our ships, to comply with IMO 2020 Sulfur cap regular and be a part of those who contribute in preserving our environmental amidst a higher LIBOR rate.

Hence the adverse result of Q3 2019 was mainly attributed by the poor freight rates. Among uncertainties still present in the market, RCL would continue best effort to produce a higher cost efficiency and strengthening our stand against harsh trade market situation, to ensure a sustainable operation.

Founded in 1979, RCL is a Thai based container shipping line. Listed on the Thai Stock Exchange since 1988, its core business is in the carriage of Shipper owned containers (SOC) and its own Carrier container containers (COC) in a service network that is fully Asia centric. RCL currently owns and operates a fleet of 46 vessels with sizes ranging between 200 TEUs and 6621 TEUs. It also has a fleet of 110,911 TEUs to support its own COC carriage as well. RCL operates a network of 66 offices made up of both owned and agency partner offices to support its operations. Today, RCL is recognised as amongst the leading SOC and Intra Asian operator by both peers and customers alike.

## INDEPENDENT AUDITOR'S REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION

## To The shareholders and Board of Directors of Regional Container Lines Public Company Limited

I have reviewed the accompanying consolidated statement of financial position as of September 30, 2019 of Regional Container Lines Public Company Limited and its subsidiaries, the related consolidated statements of income and comprehensive income for the three - month and nine - month periods ended September 30, 2019, the statements of changes in equity and cash flows for the nine - month period ended September 30, 2019, as well as the condensed notes to the consolidated financial statements, and I have also reviewed the separate financial information for the same periods of Regional Container Lines Public Company Limited. Management is responsible for the preparation and presentation of this interim financial information in accordance with Accounting Standard 34 (revised 2018), "Interim Financial Reporting". My responsibility is to express a conclusion on this interim financial information based on my reviews.

## Scope of review

I conducted my reviews in accordance with Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with auditing standards and consequently does not enable me to obtain assurance that I would become aware of all significant matters that might be identified in an audit. Accordingly, I do not express an audit opinion.

## Conclusion

Based on my reviews, nothing has come to my attention that causes me to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with Accounting Standard 34 (revised 2018), "Interim Financial Reporting".

# Regional Container Lines Public Company Limited and its subsidiaries <br> Notes to interim financial statements <br> For the three - month and nine - month periods ended 30 September 2019 

## 1. General information

### 1.1 General matter

Regional Container Lines Public Company Limited ("the Company") was incorporated as a public limited company under Thai laws. The Company operates its business in Thailand and other countries in South China Sea and its principal activity is in the business of international vessel operations. The Company's registered address is $127 / 35$ Ratchadapisek Road, Chongnonsi, Yannawa, Bangkok.

### 1.2 Basis for the preparation of the interim financial statements

These interim financial statements are prepared in accordance with Accounting Standards No. 34 (revised 2018) "Interim Financial Reporting", with the Company choosing to present condensed interim financial statements. However, the Company has presented the statements of financial position, changes in shareholders' equity, income, comprehensive income and cash flows in the same format as that used for the annual financial statements.

These interim financial statements are presented in Thai Baht which is different from the functional currency of the Company, which is US Dollar. The presentation is in Thai Baht in accordance with the regulatory requirements in Thailand.

The USD functional currency interim financial statements are translated into the Thai Baht presentation currency financial statements at the rate of exchange prevailing at the end of reporting period in respect of assets and liabilities, and the transactions in the income statements and statements of comprehensive income are translated at the average exchange rates of each period, differences being recorded as "Exchange differences on translating financial statement" in other comprehensive income, other component of shareholders' equity.

The interim financial statements are intended to provide information additional to that included in the latest annual financial statements. Accordingly, they focus on new activities, events and circumstances so as not to duplicate information previously reported. These interim financial statement should therefore be read in conjunction with the financial statements for the year ended 31 December 2018.

An English language version of the interim financial statements has been prepared from the statutory interim financial statements that were issued in Thai language. In case of conflict or difference in understanding, the interim financial statements in Thai language shall prevail.

### 1.3 Basis of consolidation

These interim consolidated financial statements include the financial statements of Regional Container Lines Public Company Limited and its subsidiaries ("the Group") and have been prepared on the same basis as that applied for the consolidated financial statements for the year ended 31 December 2018.

### 1.4 Adoption of new financial reporting standards

### 1.4.1 Financial reporting standards which are effective for the current period

During the period, the Group adopted a number of revised and new accounting standards and financial reporting standards including their interpretations, issued by the Federation of Accounting Professions, which are effective for financial statements year beginning on or after 1 January 2019. Adoption of the above financial reporting standards in the current period do not have material effect on the financial statements. Accordingly, the Group reclassified revenues recovered from customers from "cost of freight and operations" to "freight income" for the three - month periods ended 30 September 2019 and 2018 amounting to USD 40.56 million or approximately Baht $1,251.80$ million and USD 41.55 million or approximately Baht $1,368.41$ million, respectively (The Company amounting to USD 0.01 million or approximately Baht 0.20 million and USD 0.01 million or approximately Baht 0.48 million, respectively) and for the nine - month periods ended 30 September 2019 and 2018 amounting to USD 122.26 million or approximately Baht $3,835.52$ million and USD 119.23 million or approximately Baht $3,835.13$ million, respectively (The Company amounting to USD 0.03 million or approximately Baht 0.91 million and USD 0.08 million or approximately Baht 2.43 million, respectively).

The above reclassification, due to initial adoption of TFRS 15 Revenue from Contract with Customers, superseding TAS 11 (revised 2017) Construction Contracts and TAS 18 (revised 2017) Revenue and the interpretation of relevant financial reporting standards, has no impact to the beginning retained earnings and profit and loss of the Group.

### 1.4.2 Financial reporting standards which are not effective for the current period

The management of the Group has assessed TAS, TFRS, TSIC and TFRIC which are effective for financial statement year beginning on or after 1 January 2020 as follows:

1) TAS 1 , TAS 7 , TAS 8 , TAS 10 , TAS 16 , TAS 21 , TAS 24 , TAS 27 , TAS 33 , TAS 34 , TAS 36, TAS 37, TAS 38, TAS 40, TFRS 8, TFRS 10, TFRS 12, TFRS 13, TFRS 15 and TFRIC 22 will not have material impact on the financial statements when they are applied.
2) The management of the Group is currently evaluating the impact of TAS 32, TFRS 7, TFRS 9, TFRS 16, TFRIC 16 and TFRIC 19 to the financial statements when they are adopted.
3) The other TAS, TFRS, TSIC and TFRIC which have not been stated in No.1) and No.2) are not relevant to the Group business, therefore they do not have impact on the financial statement when they are applied.

## 2. Significant accounting policies

The interim financial statements are prepared using the same accounting policies and methods of computation as were used for the financial statements for the year ended 31 December 2018.
3. Change in accounting estimation

During the current period, the Group changed the estimated residual value of the vessels. This change was made so that the residual value of the vessels would approximate market value. The effect of the change is to increase net income of the Group and the Company for the three - month period ended 30 September 2019 by Baht 21.1 million and Baht 5.9 millioin; respectively (Baht 0.026 per share and Baht 0.007 per share, respectively) and for the nine - month period ended 30 September 2019 by Baht 64.5 million and Baht 18.0 million, respectively (Baht 0.078 per share añe Bäh 0.022 per share, respectively).

* Based on the weighted average by age group of employees
** Reference from TMO2017 : Thai Mortality Ordinary Table of 2017
- Sensitivity analysis of significant actuarial assumptions

Significant actuarial assumptions for sensitivity analysis are discount rate, salary increase rate, employee turnover rate and mortality, while holding all other assumptions constant. The sensitivity analysis of change in the relevant actuarial assumption that were reasonably possible as of 30 September 2019 as follows:

- If the discount rate increases (decrease) by $1 \%$, the provisions for employee benefits in Consolidated financial statements would decrease Baht 3.24 million (increase Baht 3.71 million) and Separate financial statements would decrease Baht 2.96 million (increase Baht 3.40 million).
- If the salary increase rate increases (decrease) by $1 \%$, the provisions for employee benefits in Consolidated financial statements would increase Baht 4.53 million (decrease Baht 3.98 million) and Separate financial statements would increase Baht 4.13 million (decrease Baht 3.62 million).
- If the employee turnover rate increases (decrease) by $10 \%$, the provisions for employee benefits in Consolidated financial statements would decrease Bath 1.54 million (increase Bath 1.70 million) and Separate financial statements would decrease Baht 1.45 million (increase Baht 1.60 million).
- If the life expectancy increases (decrease) by one year for all employees, the provisions for employee benefits in Consolidated financial statements would increase Baht 0.14 million (decrease Baht 0.15 million) and Separate financial statements would increase Baht 0.13 million (decrease Baht 0.14 million).

In presenting the above sensitivity analysis, the present value of the provisions for employee benefits has been calculated by using the same method that applied in calculating the provisions for employee benefits recognized in the statement of financial position.

On 5 May 2019, the Company and a subsidiary in Thailand have amended its post-employment benefits plan to conform with Labour Protection Act which the main point is to increase the rate of benefit of an employee who has past service 20 years or more from 300 days to 400 days. The Company and a subsidiary in Thailand have recorded the effect of the change by recognizing past service cost as expenses immediately in the $2^{\text {nd }}$ quarter income statement of the year 2019 amounted to Baht 9.13 million (The Company : Baht 8.31 million).

## 17. Tax expenses

The Company has been granted various tax privileges by the Board of Investment under the Investment Promotion Act. B.E. 2520. These include exemption from corporate income tax on profits for a period of 8 years for certain operations. In addition, since 1999 shipping profits have been exempted from income tax.

The corporate income tax rate being used by the Company and its subsidiaries in Thailand $20 \%$ on the net income of those operations which are not eligible for the above tax exemption.

Corporate income tax of the overseas subsidiaries and associate has been calculated by applying the applicable statutory rates of the relevant countries.

As at 30 September 2019 and 31 December 2018 the Group has deductible temporary differences, temporary differences arising from exchange difference occurring while translating financial statements in functional currency into presentation currency, provisions for employee benefits and unused tax losses totaling Baht 265.09 million and Baht 109.52 million, respectively, (Separate Baht 67.84 million and Baht 1.78 million, respectively). However, the Group did not recognize deferred tax assets as the Group believes that it is not probable that future taxable profit will be available to allow the entire deferred tax assets to be utilized including almost income of the Group being exempted from income tax, except a subsidiary in Thailand which recognized deferred tax assets amounted Baht 3.85 million and Baht 3.58 million, respectively.

## 20. Shipbuilding contracts

On 5 July 2017, the Company entered into 2 optional vessel building contracts amount of USD 39.2 million The payment term of vessel was scheduled in $5^{\text {th }}$ installment periods with different percentages based on the contract price: $10 \%$ for the $1^{\text {st }}$ and $2^{\text {nd }}$ installment, $0 \%$ for the $3^{\text {rd }}$ installment, $5 \%$ for the $4^{\text {th }}$ installment and $75 \%$ for the $5^{\text {th }}$ installment (payment upon delivery of the vessel). On 4 January 2018, the Company postponed the delivery date of both vessels to July 2019 and August 2019, respectively. The Company has received 2 vessels and paid the remaining amount as scheduled.

21. Financial instruments

The Group could be exposed to the market risk, including primarily changes in interest rates and currency exchange rates. The Group uses derivatives and other instruments to manage and hedge such risk but not for speculative or trading purposes.

### 21.1 Financial risk management

The Group's financial instruments principally comprise cash and cash equivalents, trade receivables, trade payables, and loans. The financial risks associated with these financial instruments and how they are managed is described below.
(1) Credit risk

Credit risk arises from the inability of customers to meet the payment terms in the normal course of business. Credit limits are set for specific amounts and due care is taken in granting credit. Furthermore, it is the Group's policy to evaluate customer's credit worthiness based on its latest financial performance. Therefore, the Group does not anticipate incurring material credit losses from its debt collection.
(2) Interest rate risk

The Group could be exposed to risk in interest rates due primarily to the Group's long - term loan obligations. However, derivative and other financial instrument hedging are used for its long - term loan interest obligations.

The Group's policy is to manage its interest cost using a mix of fixed and variable interest rate debt. To manage this mix in a cost - efficient manner, the Group enters into interest rate swaps in which the Group agrees to exchange at specific intervals, the difference between fixed and variable interest amounts calculated by reference to an agreed - upon notional principal amount. These swaps are designated to hedge underlying debt obligations at the statements of financial position date. The Group does not hold or issue derivative instruments for speculative or trading purposes.

As at 30 September 2019, the Company had a period - by - period knock out swap and interest rate swap agreement covering the notional 3 promise amount of USD 17.11 million ( 31 December 2018:2 promise of amount USD 14.72 million), an interest rate of LIBOR is to be swapped for a fixed interest rate, with the notional amount base used for determination of the interest to be amortized at a rate of USD 2.13 million per quarter, the contracts expiration date is the year 2020, 2021 and 2023.

For the three - month period ended 30 September 2019, the Company had unrealized loss from changes in the fair value of derivatives of USD 0.01 million, or approximately Baht 0.15 million (30 September 2018 : gain of USD 0.01 million, or approximately Baht 0.43 million). The Company recorded the unrealized gain (loss) in the statements of income.

For the nine - month period ended 30 September 2019, the Company had unrealized loss from changes in the fair value of derivatives of USD 0.26 million, or approximately Baht 8.24 million (30 September 2018 : gain of USD 0.04 million, or approximately Baht 1.38 million). The Company recorded the unrealized gain (loss) in the statements of income.

## (3) Foreign currency risk

The Group business spans across the Asian region and, as a result, is exposed to foreign currency exchange rates. For that reason, the freight charges are prices in US dollars and payable in local currency equivalents, a natural foreign currency hedge is created by matching the currency of income flow (linked to US dollars) to the currency of indebtedness. This mechanism functions as a key factor for the Group's ability to manage its foreign exchange exposures. Most of the loans extended to the Group, are thus denominated in currencies similar to that of its income flow. In addition, the Group uses derivative instruments, as and when it considers appropriate, to manage such risks. The Group does not use foreign currency forward contracts or purchased currency options for trading purposes.

In addition to foreign currency transactional exposures, the Group is also exposed to foreign exchange movements on its net investment in foreign subsidiaries. As at 30 September 2019 and 31 December 2018, the Group does not hedge such exposures to foreign movement risk as it is minimal.

Whenever possible, it is the Group's policy to negotiate the terms of the hedged derivatives to match the terms of the hedged financial assets or liabilities item to maximise hedge effectiveness.

## (4) Commodity price risk

Bunker cost represents a major component of the operational costs of a subsidiary in Singapore. Hence the said subsidiary is exposed to bunker price fluctuations. As at 30 September 2019, a subsidiary in Singapore has taken protection against the higher price risk with the physical bunker forward purchase contract within the certain limit in accordance with the Group's policy. The physical bunker forward purchase policy which blends interval forward with spot purchase has provide the Group with a less risk exposure to bunker price. And a subsidiary has outstanding commitments under the above purchase contract as described in note 19.1 (b) to the interim financial statements.

### 21.2 Fair value

Other than the long - term loans, which carry interest at rates which closely approximate market interest rates, the majority of financial assets and liabilities are short - term, and their carrying values do not materially differ from their fair values.

## 22. Capital management

The primary objective of the Company's capital management is to ensure that it has an appropriate financial structure and preserves the ability to continue its business as a going concern.

The Company manages its capital position with reference to its debt - to - equity ratio also to comply with a condition in the long - term loan agreements, which require the Company to maintain a consolidated debt - to - equity ratio of not more than $1.5: 1$.

As at 30 September 2019, the Group's debt - to - equity ratio was $1.26: 1$ (31 December $2018: 1.18: 1$ ) and the Company's was $1.33: 1$ (31 December $2018: 1.02: 1$ ).

## 23. Functional currency financial statements

The USD functional currency statements of financial position as at 30 September 2019 and 31 December 2018 and the statements of income for the three - month and nine - month periods ended 30 September 2019 and 2018, are as follows:
