

บริษัท อาร์ ซี แอล จำกัด (มหาชน) Regional Container Lines Public Company Limited

The Acquisition of Two Newly Built 4,400 TEUs Vessels

Regional Container Lines Public Company Limited (the “Company”) or (“RCL”) would like to inform that the Company placed a newbuilding-order for two (2) intermediate-feeder-size container vessels at a reputable shipyard in China. These orders come with competitive pricing and will be delivered between 2027 and 2028.

Those vessels are scheduled for integration into the Company’s fleet and network or being considered for a potential long-term charter contract. RCL is continuously working on strategic asset-placement, especially in a segment where the current order book is lacking.
