

บริษัท อาร์ ซี แอล จำกัด (มหาชน) Regional Container Lines Public Company Limited

Press Release for Financial Results 31 March 2025

Regional Container Lines Public Company Limited (the “Company” or “RCL”) is pleased to inform that the Company recorded a net profit of THB 2,058 million for the first quarter of 2025, an increase of THB 1,446 or 236% compared to the same period of the previous year. This was primarily driven by a freight income increase of THB 2,520 million or 37%, while the total lifting reached 658,000 TEUs, an increase of 53,500 TEUs or 8.9%. This growth was attributable to the expansion of the Company’s fleet, which included three additional vessels and larger capacity compared to the same period last year, particularly due to the delivery of two large new vessels of 12,000 TEUs and 7,000 TEUs in December 2024 and January 2025, respectively. The average freight rate in the first quarter of 2025 also improved, rising to USD 415 per TEU, compared to USD 314 per TEU in the first quarter of 2024. In addition, the Company recorded a gain of THB 85 million from the disposal of aging vessels during this quarter, taking advantage of high demand in the vessel market.

When compared to the fourth quarter of 2024, during which the Company reported a net profit of THB 2,471 million (excluding the reversal on impairment of vessels of THB 847 million), the net profit in the first quarter of 2025 declined by THB 413 million or 16.7%. The primary reason was a reduction in freight income, mainly due to a decrease in the average freight rate from USD 429 per TEU in the fourth quarter of 2024 to USD 415 per TEU in the first quarter of 2025. In the meantime, total lifting dropped by 11,000 TEU, or 1.7%. Nevertheless, the Company maintained effective cost management achieving 2.5% reduction in cost of freight and operations compared to the previous quarter, driven by increased capacity and continued implementation of cost-control measures.

In the first quarter of 2025, the container shipping industry continued to face challenges arising from several key factors that have impacted both growth prospects and operational performance among shipping service providers, particularly, geopolitical tensions in the Middle East and environmental regulations under the standards set by the International Maritime Organization (IMO). Furthermore, global geopolitical uncertainties coupled with evolving direction of international trade policies and the potential risks arising from trade wars remain critical issues requiring close monitoring, as these factors may influence global trade routes and future demand for shipping services.

บริษัท อาร์ ซี แอล จำกัด (มหาชน) Regional Container Lines Public Company Limited

The Company has implemented a range of strategic initiatives in response to external factors impacting the container shipping industry and enhance long-term competitiveness. Key efforts have focused on optimizing fleet management while investing in new vessels that equip modern, energy-efficient technologies and are compatible with alternative fuels. These modern vessels contribute to the reduction of greenhouse gas emissions and are aligned with environmental regulations set by the IMO. Moreover, such investments are also consistent with the Company's cost control policy.

Furthermore, the Company has expanded its service routes to Mexico in response to increasing demand in the Latin American region, a potential market with continued growth. The first voyage commenced at the end of April 2025. This strategic expansion not only opens new market opportunities but also enhances regional customer diversification. Furthermore, the Company continues to prioritize internal system enhancements and workforce development including the upskilling of employees to strengthen the organization's readiness to support sustainable growth in the future.

Management is responsible for the preparation and presentation of this interim financial information in accordance with Accounting Standard 34 “Interim Financial Reporting”. My responsibility is to express a conclusion on this interim financial information based on my reviews.

Scope of review

I conducted my reviews in accordance with Standard on Review Engagements 2410, “Review of Interim Financial Information Performed by the Independent Auditor of the Entity”. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with auditing standards and consequently does not enable me to obtain assurance that I would become aware of all significant matters that might be identified in an audit. Accordingly, I do not express an audit opinion.

Conclusion

Based on my reviews, nothing has come to my attention that causes me to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with Accounting Standard 34 “Interim Financial Reporting”.

Notes to interim financial statements

For the three - month period ended 31 March 2025

1. General information

1.1 General matter

Regional Container Lines Public Company Limited (“the Company”) was incorporated as a public limited company under Thai laws. The Company operates its business in Thailand and other countries in South China Sea and its principal activity is in the business of international vessel operations. The Company’s registered address is 127/35 Ratchadapisek Road, Chongnonsi, Yannawa, Bangkok.

1.2 Basis for the preparation of the interim financial statements

These interim financial statements are prepared in accordance with Accounting Standards No. 34 “Interim Financial Reporting”, with the Company choosing to present condensed interim financial statements. However, the Company has presented the statements of financial position, changes in shareholders’ equity, income, comprehensive income and cash flows in the same format as that used for the annual financial statements.

These interim financial statements are presented in Thai Baht which is different from the functional currency of the Company, which is US Dollar. The presentation is in Thai Baht in accordance with the regulatory requirements in Thailand.

The USD functional currency interim financial statements are translated into the Thai Baht presentation currency financial statements at the rate of exchange prevailing at the end of reporting period in respect of assets and liabilities, and the transactions in the income statements and statements of comprehensive income are translated at the average exchange rates of each period, differences being recorded as “Exchange differences on translating financial statement” in other comprehensive income, other component of shareholders’ equity.

The interim financial statements are intended to provide information additional to that included in the latest annual financial statements. Accordingly, they focus on new activities, events and circumstances so as not to duplicate information previously reported. These interim financial statement should therefore be read in conjunction with the financial statements for the year ended 31 December 2024.

An English language version of the interim financial statements has been prepared from the statutory interim financial statements that were issued in Thai language. In case of conflict or difference in understanding, the interim financial statements in Thai language shall prevail.

1.3 Basis for the preparation of the interim consolidated financial statements

These interim consolidated financial statements include the financial statements of Regional Container Lines Public Company Limited and its subsidiaries (“the Group”) and have been prepared on the same basis as that applied for the consolidated financial statements for the year ended 31 December 2024.

2. Significant accounting policies

The interim financial statements are prepared by using the same accounting policies and methods of computation as were used for the financial statements for the year ended 31 December 2024.

The revised financial reporting standards which are effective for fiscal years beginning on or after 1 January 2025, do not have any significant impact on the Group’s financial statements.

3. Change in accounting estimation

During the period, the Group changed the estimated residual value of the vessels. This change was made so that the residual value of the vessels would approximate market value.
